Test Results: Genotype of your dog is Normal.

Risk for developing FN: This dog will never develop FN (Familial Nephropathy).

Significance for breeding: Genetically Normal dogs can be bred to any dog and will produce no pups affected with FN.

This interpretation is based on the test result of the DNA test for the specific mutation identified as causing FN (Familial Nephropathy) in English Cocker Spaniels as of the date on this report.

For further information, please consult the OptiGen website at www.optigen.com

Note: The use of this test is patent protected and licensed to OptiGen. See http://www.optigen.com/opt9_patent.html for details.

International DNA Based Genetic Database: To register this result with OFA, make a copy, sign below, mail WITH FEE, to OFA, 2300 E. Nifong Blvd, Columbia, MO 65201-3856 or FAX to 573-875-5073. www.offa.org

I hereby certify that the sample submitted was of the animal described on this application. I authorize the OFA to release all information on the test results thus placing the results in the public domain and I hereby release OFA from any and all liability associated with the release of test information.
